Note No. 110

Your Excellency

I have the honour to refer to the proposed export by British Nuclear Fuels Plc (BNF PLC) to the Institutt for Energiteknikk (IFE), Kjeller, of 3.796 Kg of mixed oxide pellets containing 2.9967 Kg of Uranium and 0.3471 Kg of plutonium.

In this connection I have the further honour to refer to International Atomic Energy Agency (IAEA) document INFCIRC/254 and to state that the Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter referred to as "The United Kingdom Government") base their nuclear export policies on this document.

So that the United Kingdom Government are in a position to implement the guidelines set out in the appendix to that document (hereinafter referred to as "the guidelines") I have the honour to propose that the Government of the Kingdom of Norway (hereinafter referred to as "The Government of Norway") shall, in respect of the material described above, comply with the following conditions:

- (a) in accordance with paragraphs 1 and 2 of the guidelines the material and any material derived from it shall be used only for peaceful purposes and shall not be used in any way which would result in any nuclear explosive device;
- (b) in accordance with paragraph 3 of the guidelines the material shall be placed under effective physical protection in accordance with the protection characteristics set out in Annex B to the guidelines, the implementation of those measures of physical protection being the responsibility of the Government of Norway;
- (c) in accordance with paragraph 4 of the guidelines, IAEA safeguards shall apply to the material and any material derived from it; and
- (d) in accordance with paragraph 10 of the guidelines the Government of Norway shall not retransfer the material or transfer any materials which may be derived from it and which are identified in the trigger list in Annex A to the guidelines to any third party unless the recipient of the retransfer or transfer shall first have provided the Government of Norway with the same assurances as those required by the United Kingdom Government for the transfer of this material and the Government of Norway is satisfied as to the bona fides of such third party.

The principle of the implementation of safeguards for the material which it is proposed to export from the United Kingdom to Norway having been accepted, and in order that this implementation may be effective, the United Kingdom Government shall confirm officially to the Government of Norway the execution of the transfer providing the relevant information as to the quantity and form of the material, date of despatch and consignee.

If the foregoing proposals are acceptable to the Government of Norway I have the honour to propose that this Note and your reply in that sense shall constitute an Agreement between our two Governments which shall enter into force on the date of Your Excellency's reply.

I avail myself of this opportunity to renew to Your Excellency the assurance of my highest consideration.
